Banrai

Consumer AI Hardware Built for Joy, Not Chores.

Make Humans Talk Again · Seed+ Investor Presentation

100% Hard-Subscription

SaaS recurring model

< 9 Mos · $150K–$200K Each

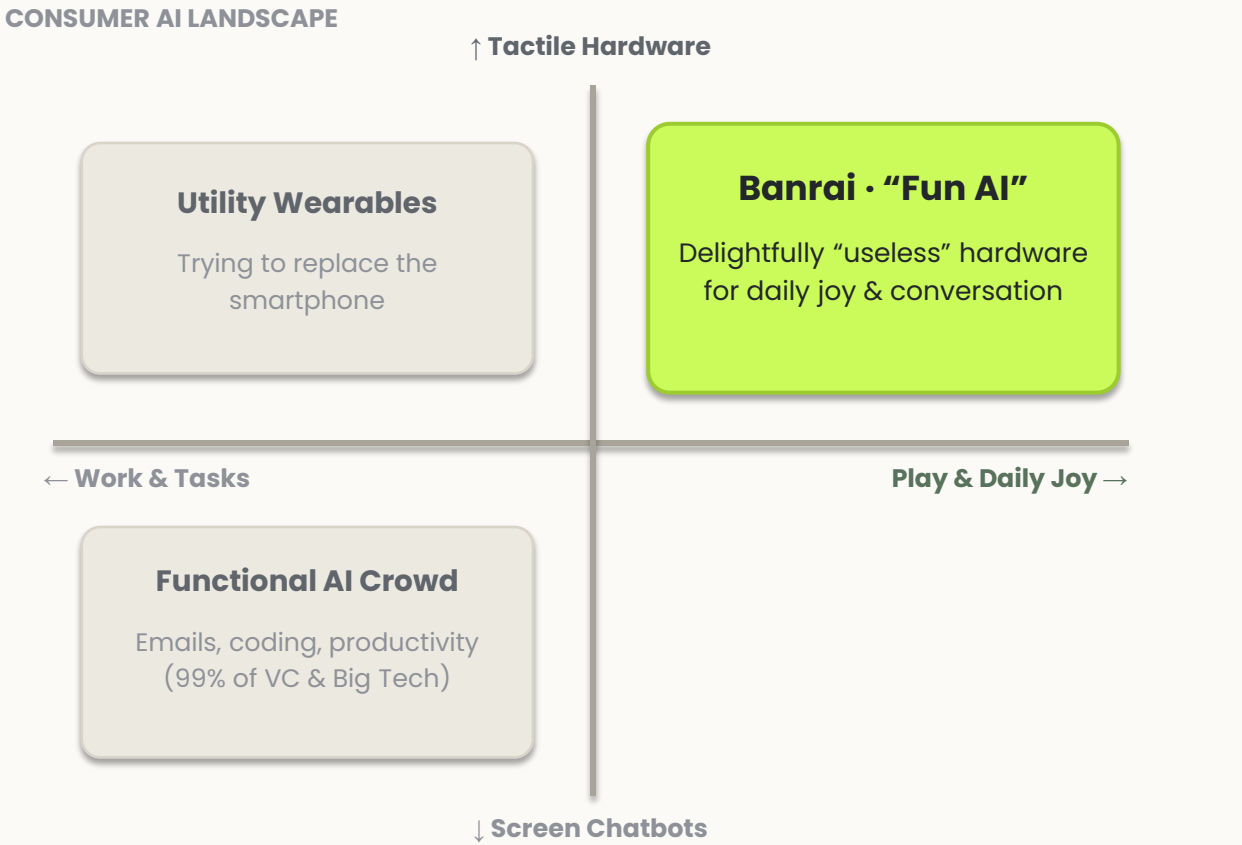

Concept to 1,000 US units

6–10 Products / Year

Powered by 1 shared backend

Banrai

Everyone Builds Functional AI. We Build Fun AI.

01 · COUNTER-TREND

Delightfully "Useless"

Zero task optimization. Built purely for curiosity, laughter, and warmth.

02 · UNIFYING THEME

"Make Humans Talk Again"

Replaces passive screen scrolling with active voice, stories, and imagination.

03 · MULTI-BRAND STRATEGY

Ambient in Every Room

Different brands & form factors—from bedside clocks to living room frames.

Banrai

Hardware Is the Vessel. SaaS Is the Engine.

TRADITIONAL HARDWARE

One-Time Unit Margin

Profit stops at checkout. Forced to push Gen-2 upgrades to survive.

Day 1: Sell Box
One-off hardware margin

→

Month 2–12
$0 recurring revenue

→

Year 2+
Beg user to buy Gen-2

THE BANRAI MODEL

100% Hard-Subscription

Real AI costs tokens—so there is no free tier. Hardware unlocks high-margin, SaaS-style recurring revenue.

01 · UNBOX

Hardware + Free Months
Ships with bundled trial months for instant magic

→

02 · SUBSCRIBE

Mandatory Monthly Fee
Hard subscription keeps the AI companion alive

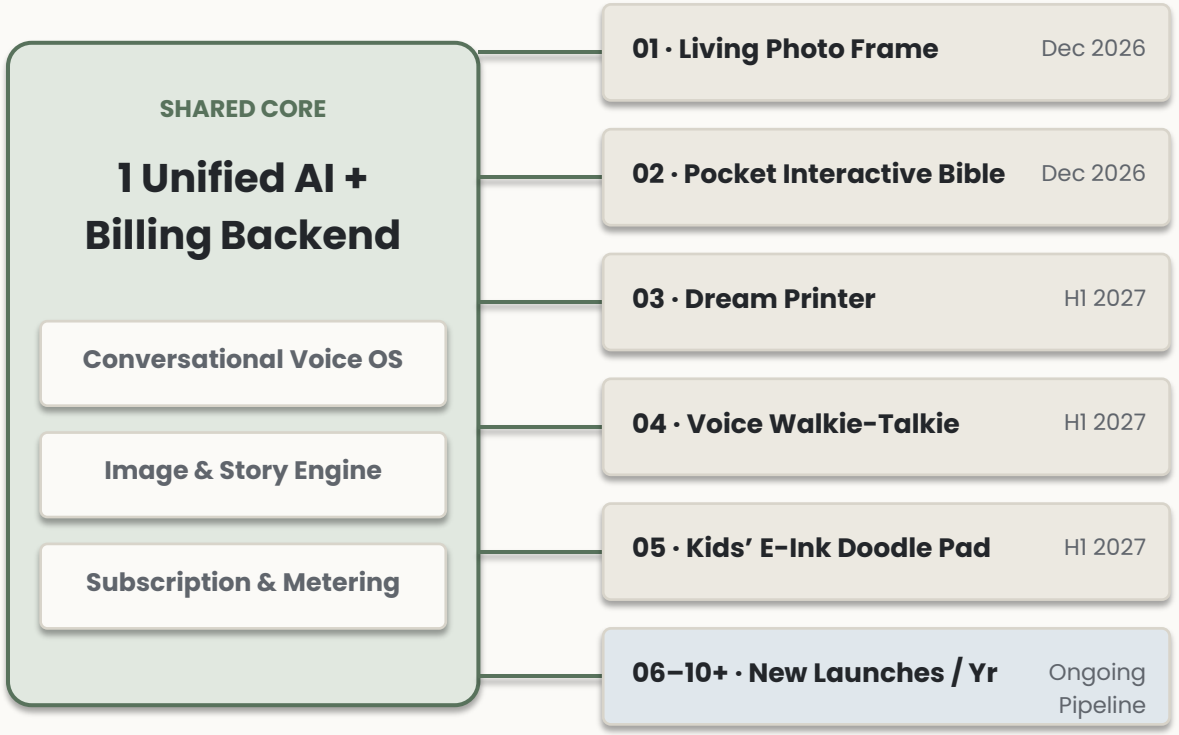

→

03 · COMPOUND

Continuous SaaS Value
Cloud updates stories & memory—growing LTV

One Shared Backend Powers Dozens of Hardware Products.

REUSABLE PLATFORM ARCHITECTURE

ECONOMICS PER HARDWARE LINE (US MARKET)

Time to Market (First 1,000 Units)

Traditional Hardware: 18 – 24+ Months

Banrai: < 9 Mos

All-In Launch Cost (R&D + First 1,000 Units)

Traditional Hardware: $3M – $10M+

Banrai: $150K – $200K

Unit Threshold for a Winner

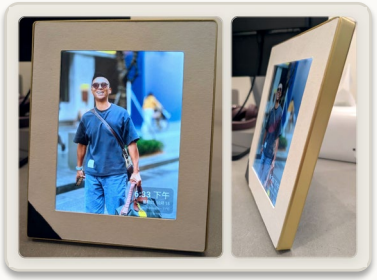

Single-Product Co: Must sell 10M+ units
Banrai Portfolio: Profitable hit at 100K+ units

Banrai

5 Products in Motion. 6–10 New Launches Every Year.

Deep Backlog: Launching 6–10 new Fun AI hardware products every year.

See Appendix (A1–A3) for full product visuals →

Banrai

Capturing the Data That Doesn’t Exist on the Internet.

PUBLIC INTERNET DATA

Teaches AI how to work, code, and summarize.
Every competitor scrapes the exact same web.

BANRAI PROPRIETARY DATA

Captures how humans play, laugh, and wonder.
Zero public dataset exists—it must be earned live.

01 · SHIP

6–10 Products / Yr

Ambient devices across daily life

→

02 · SPARK

Spontaneous Play

Users talk for joy, not chores

→

03 · COLLECT

Exclusive Joy Data

Un-scrapable emotional signals

→

04 · EVOLVE

Smarter “Fun AI”

Compounds retention across all SKUs

↺ **Continuous Compounding Loop Across Every Brand & Hardware Line**

Delightfully “Useless.” Commercially Unstoppable.

CATEGORY OF ONE

Fun AI > Functional AI

Owning daily consumer joy & voice while the rest of tech fights over spreadsheets.

ASYMMETRIC HARDWARE MATH

< 9 Mos · $150K–$200K

1 shared AI + SaaS backend powers 6–10 US hardware launches per year.

COMPOUNDING DATA MOAT

2 Launching · 3 Prototyping

2,000 US units shipping Dec 2026; building the only dataset of human play.

Banrai

Make Humans Talk Again.

Appendix Follows →

Banrai

Shipping Dec 2026: 1,000 US Units Each (On Budget)

DEC 2026 · 1K UNITS

Magical Living Photo Frame

• Harry Potter-style living portraits that wave hello as you walk by.
• Syncs with live local weather (pulls out an umbrella when it rains outside).

DEC 2026 · 1K UNITS

Pocket Interactive Bible

• Standalone E-Ink + 4G cellular device for focused, distraction-free faith.
• Warm Christian companion that deepens Scripture understanding via daily talk.

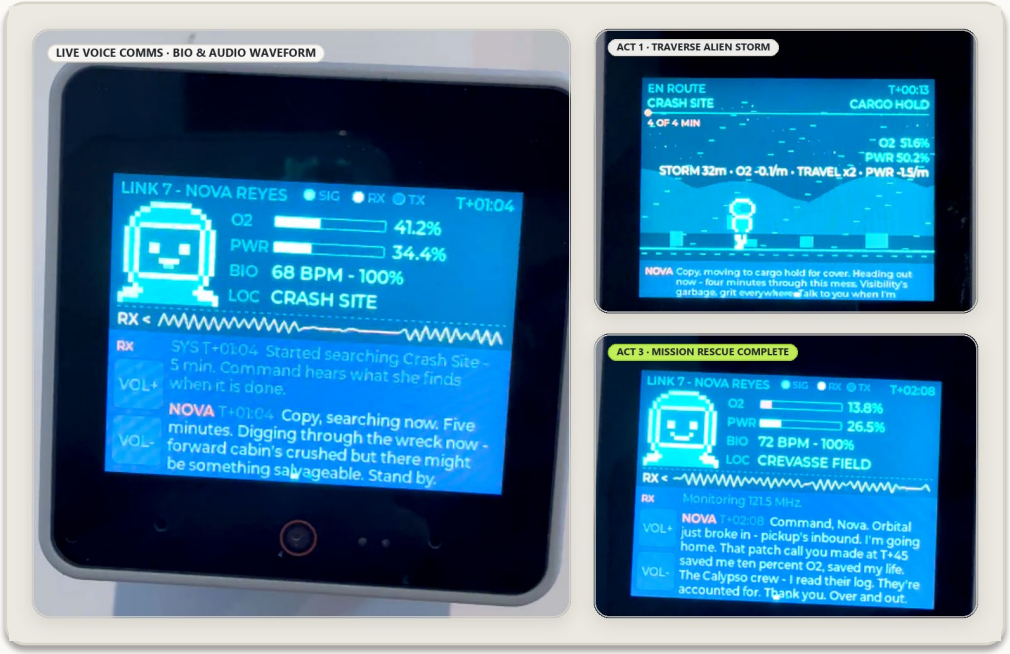

Prototyping for H1 2027: Morning Rituals & Voice Gaming

H1 2027 · PROTOTYPE

Dream Printer

- Press a button upon waking to speak your dream; generates dream art + transcript.
- Builds a connected dream diary linking recurring themes across prior nights.

H1 2027 · PROTOTYPE

Voice Gaming Walkie-Talkie

- A character stranded on an alien planet or escape room calls for your help.
- Calm them down, guide exploration, and solve live incidents by voice.

Banrai

Prototyping for H1 2027: E-Ink Children's Story Doodle Pad

H1 2027 · PROTOTYPE

Eye-Friendly E-Ink Children's Doodle Pad

How kids should experience AI—long before they even know what AI is.

Doodle → Comic Story

Extends any child's sketch into a back-and-forth comic adventure.

Visual Q&A

Answers handwritten or doodled questions in a child-friendly way.

Calm E-Ink Screen

Zero blue light or addictive feeds—pure creative agency.
